

## Safeguarding Children Training Pathway WAHT-TP-037

### Available training

As well as the awareness training session incorporated into the Trust Induction programme, there are 4 levels of training. All staff must complete level 1 and then progress to the level that contains the appropriate job description – (*see training levels information box*)

Once the correct level of training has been achieved, over the next 3 years period the staff will need to complete refresher safeguarding learning at the level appropriate to their role.

When completing refresher training do not go back to level 1 and start again if the last level completed was level 2 or above. Refresh your training at the final level that has been completed.

Staff who join the Trust may have completed safeguarding children training in a previous role. Evidence in the form of accredited certificates documented learning logs/case discussions/reflection should be taken to the training department who will enter the training completed onto the database.

NHS Safeguarding Children Training levels 1 – 3 are available electronically via ESR. A smartcard or ESR username and password will be required to access the training. Training at level 1 & 2 is also available as a classroom taught session.
